CRAZY OPTICAL PERFORMANCE.

We equipped Savage A40 with a 100 x 50mm viewing area for a wider field of vision and greater spatial awareness. Its 1/1/1/2 optical-class lens features our ultra-clear true-color technology for increased weld pool clarity and enhanced definition. The result? A bigger, better view.

EXTREME TECHNOLOGY.

With Savage A40, the sensitivity and delay controls inside the helmet allow for seamless setting adjustments. And Savage A40's four light sensors provide a faster auto-darkening response, especially when working out of position.

***WILD* EXTERNAL FEATURES.**

Just like Sentinel, Savage A40 comes with an externally activated grind mode button for superior convenience. And its DIN 9-13 adjustment knob makes it easy to change shades, even while wearing a heavy glove.

PICK THE HOOD THAT'S BEST FOR YOU.

Whether you choose the new Savage A40 or our best-selling Sentinel A50 professional welding helmet, you'll gain a killer combination of technology and performance for your money.
